

The Body is the Miracle!

As we unravel the design, function, and form of the human body - cell by cell, tissue by tissue, organ by organ - we are humbled by the miracle of the complete human organism.

When nurtured with care, the body exhibits astonishing resilience required for a long and healthy life.

Suzanne Jonas, Ed.D.
Behavioral Medicine
Sound Therapy, Musician,
Psychotherapy

Dr. Jonas has been working in the field of sound and music therapies for over 35 years. She has produced many health CDs that are currently being used in our nation's hospitals. She has done definitive research on the effects of music and sound and written several books and articles. See More at:

Introducing...

AO SCAN

AO Scan Technology provides a timely and cost-effective way for you to collect information about your emotions and body AND begin to train your energy back into homeostasis.

How do you know if you are nurturing or neglecting your body?

Science has discovered that every cell, tissue and organ of the body is 98% energy that resonates at a unique frequency and vibration. (Brett J. Earl, M.D., Psy.D, iMD).

YOUR BODY IS ELECTRIC and MAGNETIC

AO Mobile Scan by Solex

Over the past 50 years, leading scientists from around the globe have catalogued thousands of **blueprint frequencies** - frequencies that are the same in every human being.

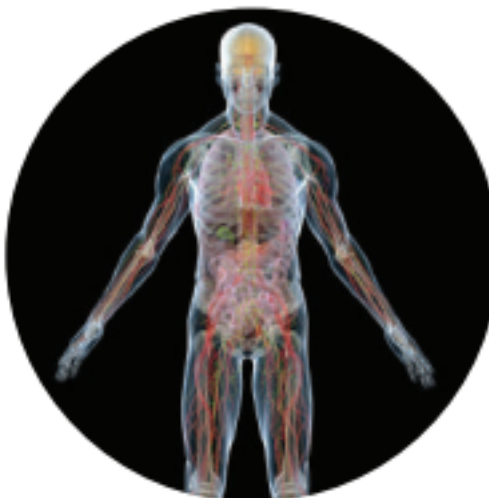

Solex has compiled a list of 120,000 unique **blueprint frequencies** and has developed a hand-held technology that allows you to compare your personal frequencies with our Blueprint Frequencies. We then display any variance so you can investigate further and take any corrective measures you seem necessary. Information is your resource.

AO Scan is an elegant yet simple technology that communicates with the body via subtle bio-frequencies and electromagnetic signals that guide you toward homeostasis - the natural state of balance.

Most of the technology is based on the works of Nicola Tesla, Albert Einstein, Marie Curie, Isaak Newton and others who theorize that everything at its fundamental level is light, energy, frequency

AO Scan Technology is NonInvasive and Safe.

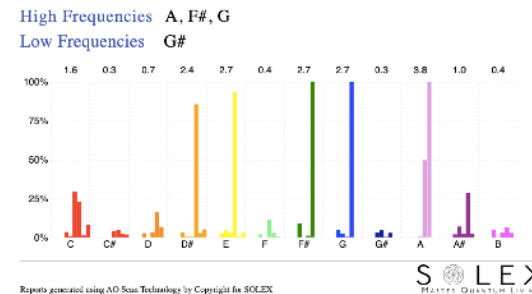

While you wear a bone conduction transducer headphone, the technology scans your body for those frequencies that are out of range, i.e. too high or too low. Responses are converted into an algorithm for conversion into multiple types of displays from graphs to 3D graphic avatar display.

Balancing Your Emotions with AO Scan

Your emotions are constantly changing your physiology. One of the fastest ways to blast through deeply rooted emotional roadblocks is by analyzing your voice. It is well documented that your voice pattern is comprised of various frequencies and reflects the state of your mind and body.

The AO Scan's unique technology can identify imbalances AND assist in balancing them.

How AO Inner Voice Scan Works

While you talk into the device microphone,

1. AO records a 10 second slice of your voice and maps it onto the computer, in person, or remotely by phone.
2. AO selects 4 appropriate frequencies, embeds them in music, and places them in a file with corresponding graph, explanations, and lifestyle recommendations. These are sent to you through email.
3. You listen to the 12 minute program 2-3 times/day. Because the programs contain radionics and binaurals headphones are necessary.
4. You continue this practice until you feel you are finished.

Additional AO Scans

The Vitals Scan, Body Systems, and Comprehensive Scans can identify imbalances in: chemistry, bones, organs, meridians, chakras, toxins, virus/bacterias, allergies, and more. Once these are identified, sympathetic vibrations are sent back to the body to encourage each cell, tissue, organ and system to return to homeostasis.
